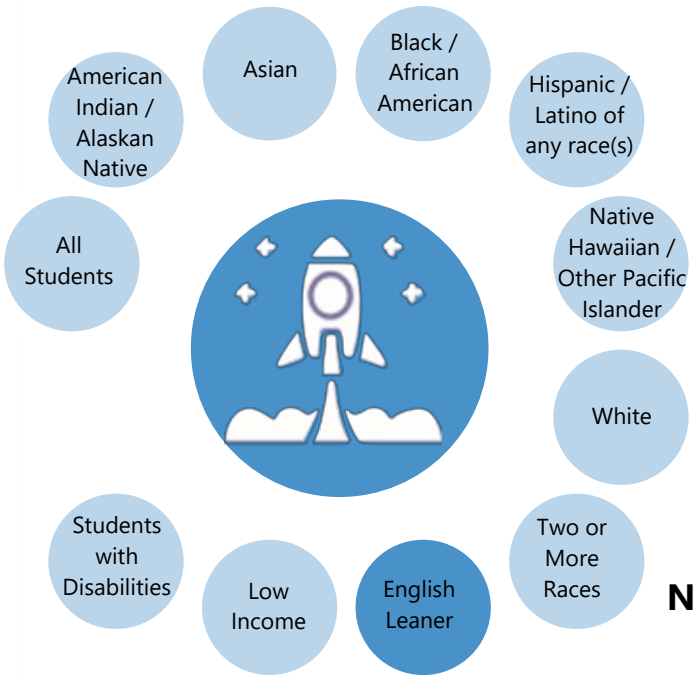
Chain Lake Elementary School

Monroe School District

Recognized For:

- **Closing Gaps**
- **Growth**
- **Achievement**

The Washington State Board of Education (SBE), the Educational Opportunity Gap Oversight and Accountability Committee (EOGOAC), and the Office of the Superintendent of Public Instruction (OSPI) developed a new recognition framework that incorporates state level and local information to identify schools that are exemplars in terms of growth and achievement. This new recognition framework identifies schools along the entire continuum of support.



Student Growth

Schools recognized for growth are improving performance across multiple Washington School Improvement Framework (WSIF) measures from one school year to the next. The schools are recognized for high growth across one or more student populations. Chain Lake Elementary School is recognized for high growth between the 2017-18 and 2018-19 school years for the following student populations:

English Learner

Number and Percent of Measures School Growth is in the top 10 percent of the State

	Total Measures Top in the Top 10 percent of the State	Total Measures Reported	Percent of Measures in the Top 10 percent
English Learner	2	3	67
